Presentation

■ Video Call

Camera on is recommended. In case of poor internet connection, you may off your camera but may want to tell your audiences about it.

■ Share Screen

Share your 1-page poster as it is. Do not zoom in your poster in your screen because it will interfere with free browsing of the audiences. Audiences can zoom in your poster by themselves (up to 300%) or drag and move the area they want to see.

※The standard presentation time is 6 min (3 min for your presentation and 3 min for discussion). Give priority to the presentation for your reviewers (indicated as 審査員 in their names).
